## Public Meeting Notice

### Roadway Improvements to Armstrong Road- Spring Construction Start

Dear Property owner:

The Township of Morris has undertaken a project to upgrade Armstrong Road through Capital Funding provided by the Township. The project will improve the roadway with a constant width roadway, new granite block curbing, and drainage systems and also include drainage improvements on Spring Brook Road from the Armstrong Road intersection to the entrance of the Spring Brook Golf Course.

We are notifying home owners in the vicinity of the project that there will be a **Public Information Meeting** to review the various improvements. The Public Information Meeting will be held on **Monday, March 8, 2010 from 4:30 PM to 7:00 PM** at the Township of Morris Court Room located in the Municipal Complex, 50 Woodland Avenue, Morristown, New Jersey. Plans for this project will be available for your review and Morris Township officials will be present to answer any questions that you may have. Some driveways along the roadway may require additional construction to allow for the driveway to match the new roadway alignment and elevation.

After we receive your input, this project will be finalized and submitted for advertising for Public Bidding. It is anticipated that construction for this project will commence in May and be completed in July. The project duration is estimated to be 90 days, notwithstanding any construction problems or weather delays.

If you have any questions or require additional information, please do not hesitate to contact us.

Very truly yours,

David S. Hansen, P.E., CPWM  
Assistant Township Engineer
