

## MORRIS TOWNSHIP POLICE DEPARTMENT

What is Nixle?

Nixle is a Community Information Service dedicated to helping you stay connected to the information that matters most to you, depending on your physical location. You can now be connected to the Morris Township Police Department and receive important information that may be relevant to you. Information is immediately available over your cell phone by text message, by email, and over the web.

What messages would I receive through Nixle?

Only authenticated agencies like the Morris Township Police can securely publish information. There are four types of messages; Alerts (many would refer to this as an emergency type alert), Advisories (less urgent need-to-know information), Community Information (day-to-day neighborhood to community-level information), Traffic (very localized traffic information).

Do I have to register to use Nixle?

Anyone can view information by going to [www.nixle.com](http://www.nixle.com) without registering. However, to customize the information you receive and the locations you receive it from, in addition to receiving information by text message and/or email you must set up an account. Once registered you can personalize your locations and your preferences, making the service fit your needs.

How does registration work?

We ask for routine information in the registration process. First set-up a user name and password. Then enter your address or closest cross-street. Then choose where you want to receive your information, whether by text over your mobile device or e-mail. Add as many locations as you would like at no additional cost. It's that simple!
