is the Morris Township Transportation Advisory Committee. We explore, study, and recommend ways that the Township Committee can improve travel, circulation, parking, and transportation in Morris Township including: **walking, biking, and driving**

In making recommendations, TAC considers factors such as **safety, convenience, accessibility, and connectivity** within and immediately beyond Morris Township.

We meet the second Wednesday of most months and invite members of the public to share their ideas or express their concerns regarding walking, biking, and driving in Morris Township. Click here to learn more!
