MEMO TO: Chairman Goldberg and PB Members

FROM: Fire Chief Michael Nunn

DATE: September 8, 2020

RE: 226 Sussex Ave, Rabbinical College of America

After reviewing the plans for the above listed project I am requesting further information on the following items.

1. The proposed parking area adjacent to detention basin limits access for our ladder trucks. I would request a No Parking Fire Zone area be designated at the rear corner of the building. This area would allow proper placement of the ladder to allow access to the roof.
2. The proposed parking spaces in the drop off area again limit the access for our ladder trucks. I request these spaces be removed and the entire area be marked as a No parking Fire Zone.
3. Stand pipe for proposed building be located in the circle by the Fire hydrant.

Thank you

Michael B. Nunn
Fire Chief
